

# Improvement Project

Phase 1: Fall 2008 – Spring 2009

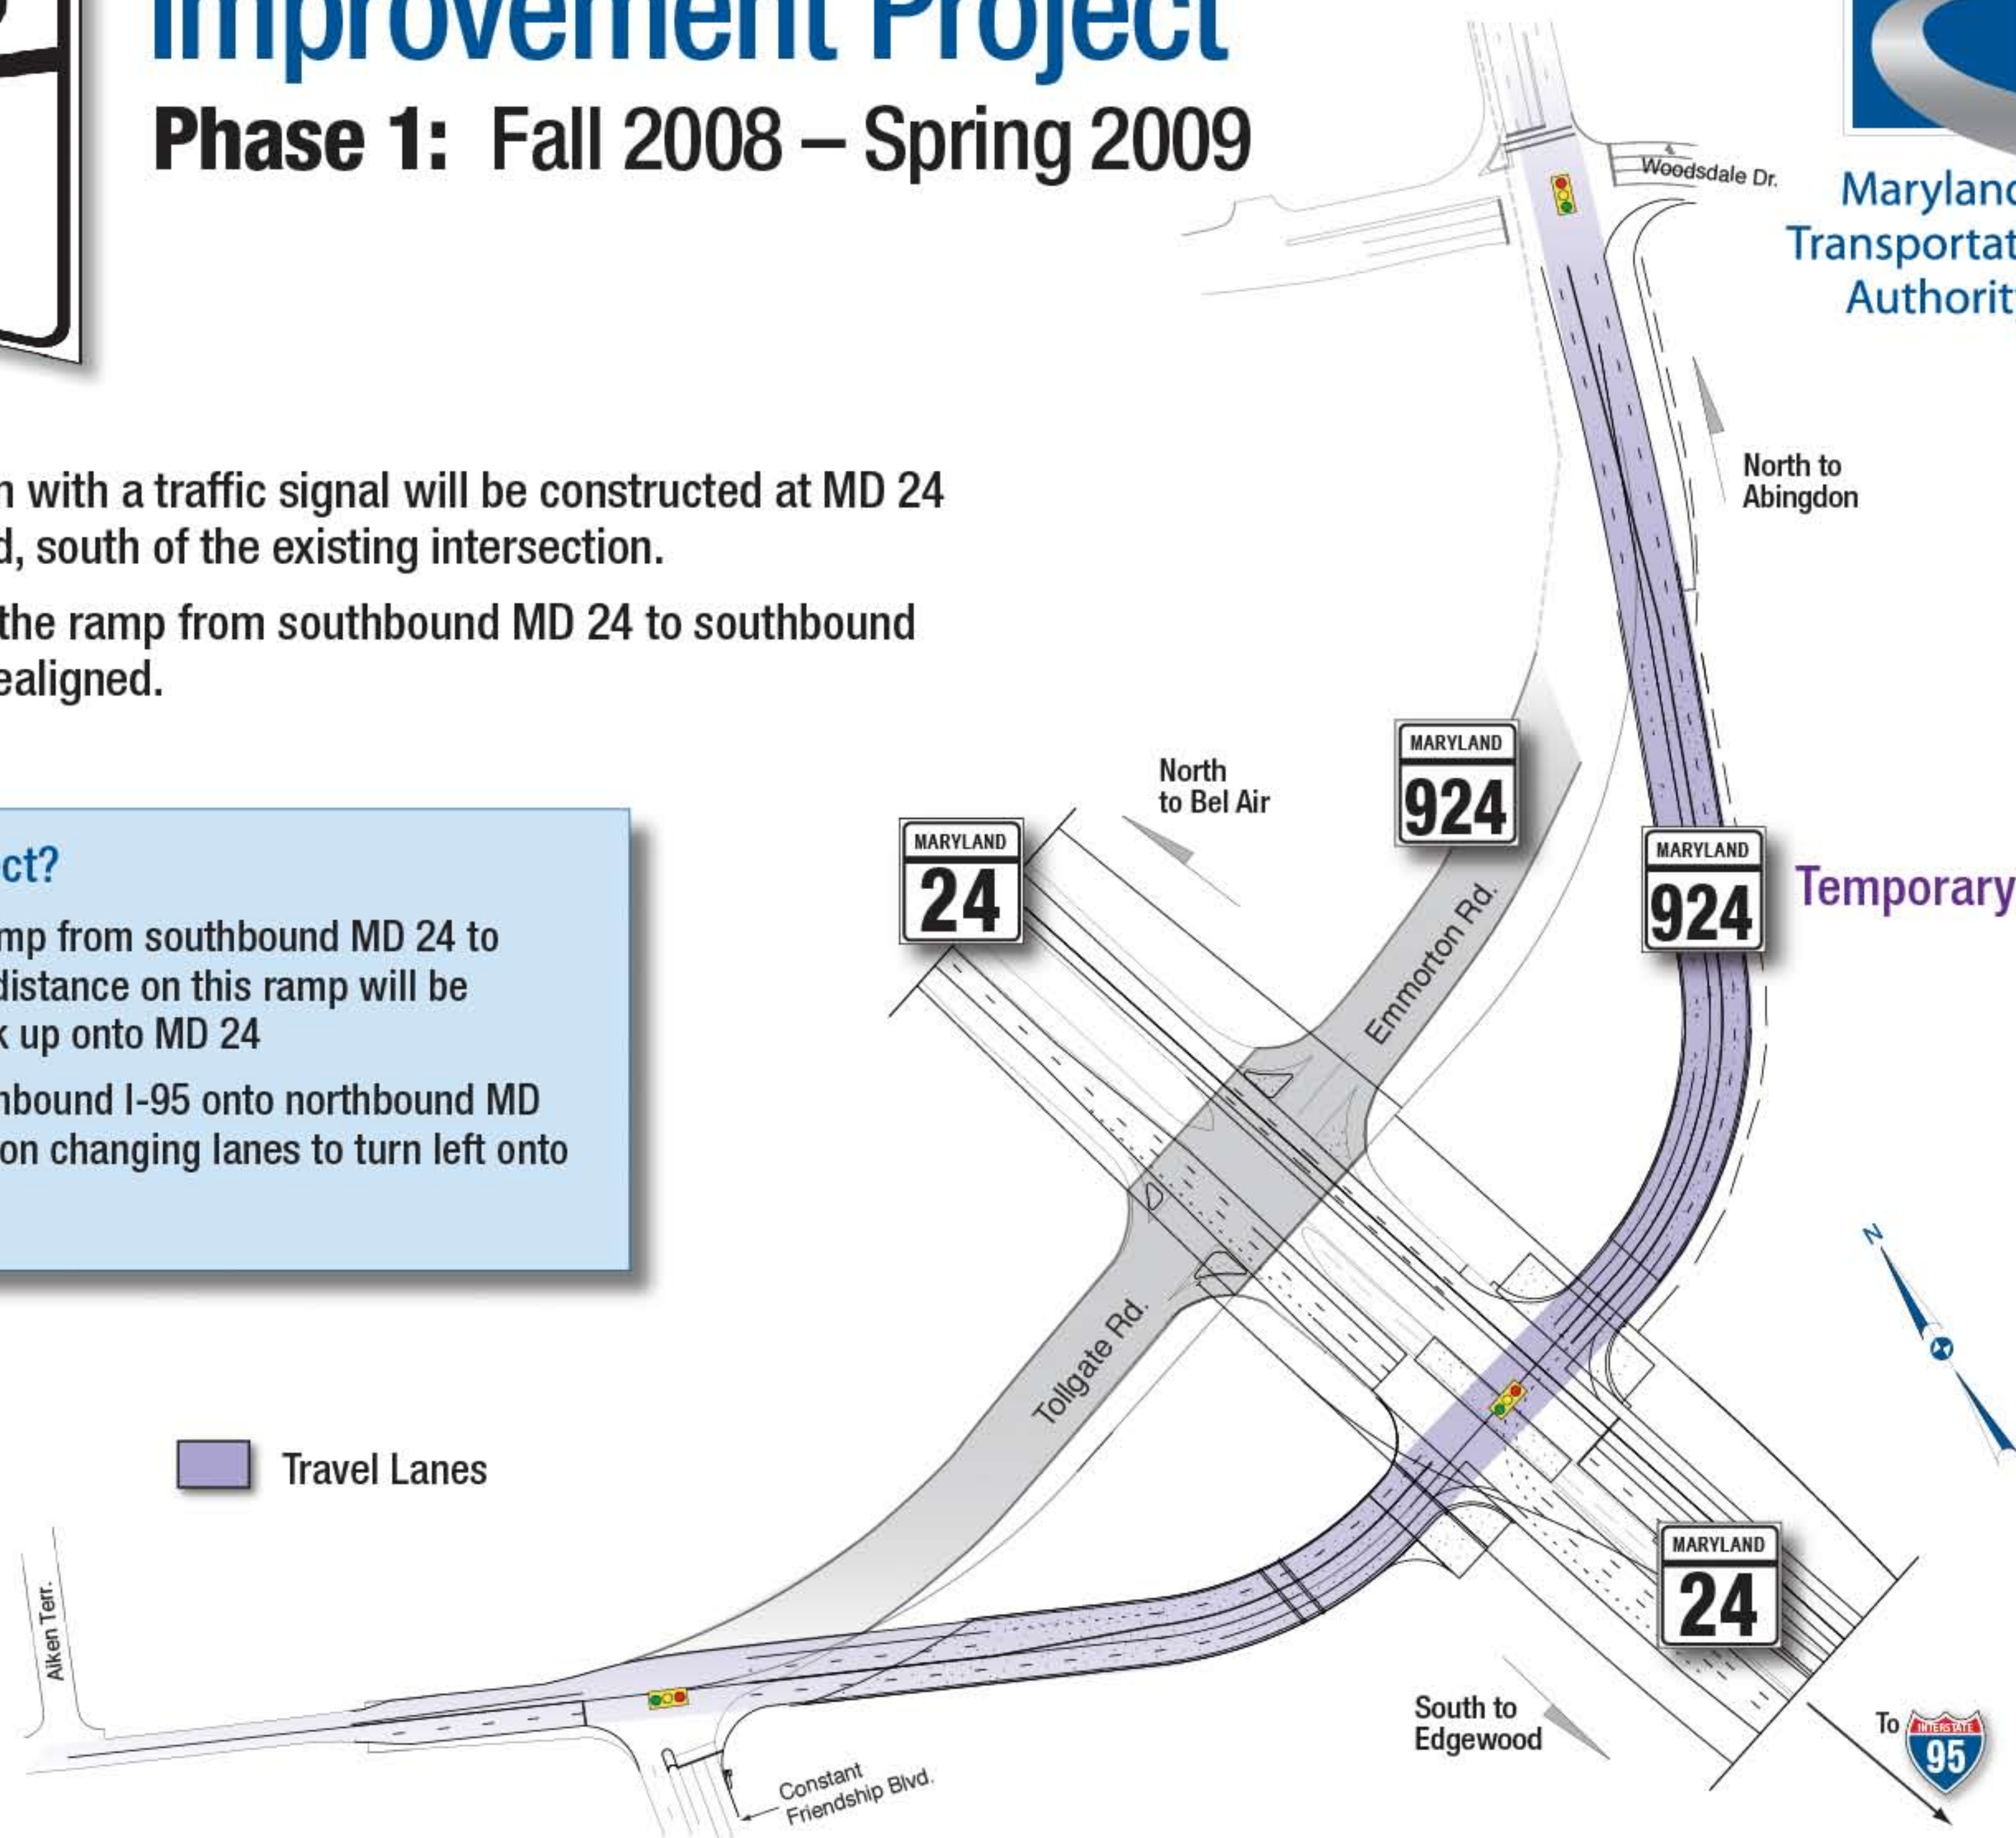

Maryland  
Transportation  
Authority

- A temporary intersection with a traffic signal will be constructed at MD 24 at MD 924/Tollgate Road, south of the existing intersection.
- Construction begins on the ramp from southbound MD 24 to southbound I-95. The ramp will be realigned.

## What should drivers expect?

- Traffic shifts along the ramp from southbound MD 24 to southbound I-95. Merge distance on this ramp will be reduced. Traffic may back up onto MD 24
- Drivers exiting from southbound I-95 onto northbound MD 24 should use extra caution changing lanes to turn left onto Tollgate Road

Martin O'Malley, Governor  
Anthony G. Brown, Lt. Governor
